

gPBL with University of Illinois Urbana Champaign, USA

Date	Place	Partner Organization	Students' Major and Grade	Participants' Information	SIT Instructor
2024/07/13 ~2024/07/22	United States	University of Illinois	Mechanical Engineering, Department of Design Engineering  Master 1st grade, Master 2nd grade, Undergraduate 4th grade	(SIT) Students 14, Student Staff 1, Professor 1  (University of Illinois) Students 15, Professor 2	YOSHITAKE Ryoji (Department of Design Engineering).  YANG WONSEOK (Department of Design Engineering)

Campus Tour

From July 13, 14 students and 1 TA held design workshops in Chicago and New York with 15 students from the University of Illinois, USA. This year's theme was "History and Design," and while visiting the Museum of Natural History, the Art Institute of Chicago, and the metropolitan museum, the students had time to gain a deeper understanding of history and life, and the role of design within that context. The Illinois students actively explained their culture to our students, and we also listened with great interest to the differences in Japanese culture. Since returning to Japan, we have been working on the production of our deliverables.
