opening ceremony

From August 22 to September 1, 15 2nd and 3rd year students, 2 4th year students, 4 graduate students, and 2 TAs participated in the International Thermal Design Workshop held at Nanyang Polytechnic (NYP) in Singapore. This year's theme was "circular design," and we visited environmental facilities and food factories in Singapore, a small country, to propose improvements and new visions. More than 90 students (5 from Korea, 15 from Taiwan, 35 from Singapore, 21 from our university, and 15 from Future University Hakodate in Japan) enjoyed 10 days of activities divided into 12 teams. Next year the event will be held jointly in Tokyo and Hakodate in Japan.
