Opening Ceremony

From October 25 to November 5, a workshop on the theme of data-driven design was held at PSU University in Phuket, Thailand. The workshop was attended by 12 students from Sojo University in Kumamoto and 5 students from Osaka Prefecture University, in addition to 30 students from Shibaura University in Japan. The students had the opportunity to experience the culture and visit historical facilities to understand the good points and challenges of the Phuket cultural experience. It was an opportunity to exchange opinions from different perspectives on issues that even the Thai students were not aware of, such as the environmental problems of the Phuket region in Thailand and problems caused by tourists.
