Before you make CV, Research Plan and Motivation

* There is no designated format. You can use your original one.

*When you upload, please make a single file and post as a **PDF file**.

Page1: CV

*Please be sure to include the following information

- ◆ Your name

- ◆ Gender

- ◆ Education background (after University/Collage)

- ◆ Major

- ◆ Grade

- ◆ What you've been studying

- ◆ Research Achievements (if any)

- ◆ TOEFL/ TOEIC score and Examination year (if any)

Page2: Research Plan

Based on your past academic experience, write the **research theme** you would like to pursue at SIT **more than 4 paragraph.**

*The plan can NOT be "still considering" or "on the process".

Page 3: Motivation for each Professors

If you already got the acceptance from SIT Professor, you can skip this

Step1)
Please find 3 professors at SIT who want to be supervised from the below link.
SIT Laboratory Page: https://www.shibaura-it.ac.jp/en/research/

Step2)
Please write the specific and reasonable reason for choosing each professor you have chosen on the online application form. **(More than 300 words for each.)** You must explain how the things you want to academically obtain through this program, the professor's current research theme, and your academic background are related. Lately, the increasing numbers of students apply for our program and it is getting more and more difficult for professors to accept all of the international students. Write the reason that the professors would like to accept you.

◆ 1st choice   -Professor Name and Motivation

◆ 2nd choice   -Professor Name and Motivation

◆ 3rd choice   -Professor Name and Motivation

Page 4: Transcript

Combine your transcript into a word file.

>>That's all<<
